I have lived in Chelsea all of my life

I attended school here, worked in local businesses, and have been very active within the community. This has given me a deep understanding of this community, which has proven invaluable over the last eight years that I have served on council. It has enabled me to act as your voice on important issues and to promote and protect your interest. I am a graduate of the University of Ottawa in Political Science as well as Governance and Public Policies. I am fluently bilingual in French and English and I pride myself on being accessible, dedicated and having thorough understanding of municipal government. It would be a great pleasure to continue serving as your municipal representative. I look forward to working closely with you and building our community together.

Projects Accomplished

- Usage of railway corridor for non-motorized activities
